The pearl of Rybnik. Some facts...

Introducing Bel Mon Resort

The Bel Mon Resort consists of the Mona Restaurant, the Berry Spa and the 5-star Lili Hotel.

The hotel offers 12 modern and sophisticated double rooms, including 2 suites. Each room is characterised by individuality in furnishings and equipment. The bathrooms with showers as one unit have been decorated in a tasteful contemporary style. Each suite has a spacious living room and a separate bedroom, as well as a separate toilet for

guests. The whole is complemented by furniture specially designed for relaxation and equipment

for the work zone. It is worth mentioning that the facility is also suitable for people with disabilities.

The Mona Restaurant offers a two-storey space of culinary delight. On the ground floor, there is a charming Brasserie Mona where you can enjoy delicious dishes in a casual atmosphere. The refined

dishes served provide the perfect backdrop for business or private meetings. A terrace is also available to guests in the summer season.

The first floor is home to the exclusive Mona Fine Dining where guests can experience exceptional cuisine in elegant surroundings.

The restaurant also offers a tasting menu, providing guests with an unforgettable taste experience in a luxurious atmosphere. Advance booking is required and Formal Casual attire is mandatory.

Our two-storey Spa includes a relaxation room; a wet area with a swimming pool, jacuzzi and 3 saunas:

dry, wet with Rasul and infrared treatments, cosmetology, therapy and massage rooms. Beauty zone: manicure, pedicure and hairdresser. The Spa offer includes access to the Berry Bar which has been skillfully integrated into the leisure area on the one hand and the hotel area on the other.

At Berry Spa, we use solutions that are limited in availability due to their superior quality. Here we are referring not only to the equipment with which we will carry out treatments and therapies but also to the companies we have chosen to work with, such as Codage and Caudalie.

Where are we? Welcome to Bel Mon Resort

A new landmark has appeared on the tourist map of Silesia that is definitely worth seeing. A unique facility in Rybnik-Stodoly. Today, we have the pleasure of interviewing the CEO of this one of the most inspiring and unique developments, Ms Marta Komar. It will be short and to the point, and why? Final preparations are underway for the grand opening...

Thank you for taking a moment for us... what is happening here today, what kind of day is it?

*The long-awaited...
31 May 2023. Wednesday.
Grand Opening!*

Where are we?

We are at the Bel Mon Resort. A place born out of a dream to create a space where guests can escape from the drudgery of everyday life, immerse themselves in a bit of luxury, simply stop... and relax. Bel Mon Resort is a small, atmospheric resort created for the beauty of its location and all its surroundings. It is a combination of exceptional architecture, elegant décor and a unique atmosphere that will provide an unforgettable experience. It consists of the boutique 5-star Lili Hotel, Mona Restaurant and Berry Spa. And the whole is complemented by a stud farm.

Just a few years ago, no one would have thought to sit here in such a lovely place and order a dinner – which I admit I am lo-

oking forward to. Rumour has it that the dinner will be masterful! Who is behind all this?

Resort owners, Mr and Mrs Mirka and Patrick Dermaut – it is thanks to their passion for cuisine and love of beauty that this place, where I have the pleasure of working, has been created. We are in the historic building of the former Cister-

cian manor house which has been given a new life and a new function. It now houses the Mona Restaurant. Mr Patrick and Mrs Mirka even took an active part in creating the restaurant's menu. They are true lovers of cuisine, drawing inspiration from the unique recipes of Mr Patrick's grandmother and mother, crossed rather boldly with traditional Polish cuisine, with an admixture of German and Slavic roots from Mrs Mirka's family. Now Kuba is in charge in the kitchen and what he creates is a true poetry of taste...

Kurt Scheller, our patron, is in charge of everything in the kitchen. And he, of course, is here with us today.

Yes, because TODAY is the grand opening...

The Mona restaurant has been in operation since October last year. We already have our regular guests whom we thank very much for being with us. We hope that the full commissioning of the facility, i.e. the opening of the hotel and spa, will help to make Bel

Mon Resort a favourite destination for all those who appreciate a unique atmosphere and high quality.

Is there anything that sets the resort apart from similar facilities in the region?

First of all, there is no other similar facility at least within a 100km radius. This is something really special. You have to see it to find out... We have the Mona Restaurant, the Berry Spa and the 5-star Lili Hotel here. You can take advantage of a comprehensive package of services provided within the resort. The phenomenon of this resort, however, is that each of its parts perfectly complements the other, but is equally dynamic as a separate brand. We are open to the requirements of the guests of the Restaurant and strive to meet the expectations of even the most refined tastes. We look forward to welcoming enthusiasts of the high-end

spa. Everyone can use the relaxation area and enjoy the sauna rituals, sinking, if only for a short while, into oriental atmospheres. A wide range of treatments, therapies, cosmetology procedures, massages, provided by well-trained staff, will give the results that every enthusiast of this type of services desires. What else sets us apart is that we are able to provide our guests/clients with comprehensive support, assistance, advice during major celebrations such as weddings, first communion parties,

christening parties – at every stage from preparation to implementation, through the organisation of accompanying events. With us, the wedding day does not have to be stressful – we will choose a hairstyle, visage, organize hen / stag parties and of course an unforgettable wedding.

How do you see this place in a year's time...?

How do I see it? There is something I am hoping for. I hope Bel Mon Resort will become a permanent 'must have' for businesses. I imagine that in a year's time it will be a favourite venue, chosen both for intimate business meetings and for hosting conferences or training sessions. There is potential here both in the place and in the people. Bel Mon Resort is made for building business relationships. I know it, I hope that our future guests will soon find out about it, too.

Such a facility obliges. Is it difficult to manage?

I started in wellingtons, in a barracks on a construction site :) Many of us have been here for a long time and help with everything. Everyone wants the facility to be put into use in full splendour and that we can welcome our guests with pride and joy. The owners saw to the exceptional architecture, elegant décor and unique atmosphere. They also took care of creating a good team that faces new challenges every

day. We all have one goal in mind: the guest's experience. This is the highest value for every member of the team and this is what we are guided by.

Let us host you. You are welcome.

Investments in Rybnik

They gave the walls their former shine...

The settlement of Stodoly was owned by the Cistercian abbey in Rudy in the 18th century. In 1736, they built in this area a manor house which in the late 1770s was rebuilt and gained its present shape. This two-storey brick building, covered by a mansard roof, built on a rectangular plan, is still today the most important monument of Stodoly. The local Cistercians contributed to the development of the local iron industry and made farm tools from smelted iron. There was also a linen bleaching plant, a glassworks and a water mill. The order was thriving in the area until the early 19th century, when it was

dissolved. With the dissolution of the order, the glory days of the post-Cistercian manor ended. Over the years, these ruins have languished in oblivion, slowly falling into disrepair and becoming little more than ashes of the past. When it seemed that it would be just a local 'bogey', repelling tourists coming to the lagoon or cycling in the surrounding forests, hope appeared with an investor driven by the dream of restoring the site to its former glory. The decision to restore the manor and give it a new character met with many difficulties. A major renovation began in 2020 and was carried out with deter-

mination and a relentless drive to restore the former grandness. Investments were also planned in the surroundings of the manor. Brick by brick, every detail was meticulously restored with concern for preserving the original character and historical value of the place. It was not a simple process. It required a lot of effort, time and resources, but the investor knew that reviving these ruins would not only bring rebirth to the site itself, but also joy and inspiration to all who visited the place.

Today, these restored ruins shine in new splendour. They house the unique Mona Restaurant, which

impresses with its beauty, original décor and offers an extraordinary culinary experience. When you cross Mona's threshold, you immediately sense the unique atmosphere of the place. The interiors and unique details exude history, creating a harmonious blend of old-world charm and modernity.

These restored ruins are a kind of symbol of strength, perseverance and belief in the potential hidden in the ruins. They remind us that when we are driven by passion and determination, we can transform the past, revitalise neglected places and create something new and unique... Thank you!

Interesting facts

My beautiful Resort

When deciding on an investment, you need to think about everything, including the name of your dream resort.

The names that were chosen arose as if on their own, flowing from the concept.

They fitted in perfectly with expectations. Their naturalness, harmony and beauty of sound distinguish each of them individually, but also create a unique whole.

MONA, BERRY, LILI – three sisters

Mona Restaurant, Berry Spa, Lilly Hotel

MONA - the name is the

result of an abbreviation of the word Monastery, which directly refers in connotation to the Cistercians and their monasteries. The explanation of the origin of the name could stop there. But that wasn't enough for us, we wanted to be sure that the name Mona – besides sounding friendly to the ear and being easy to remember/pronounce – had positive overtones: modern, competent, with temperament – that's exactly what the cuisine in the MONA restaurant is.

BERRY - who doesn't like berries? Who can resist this exquisite taste? Who can resist this sweetness? Add to this the inextricable truth

that the healing properties of this fruit were already used by the first Slavic tribes, and today it is ranked as one of the healthiest fruits – and you have the perfect recipe for a wholesome name associated with a leading person. Berry – Jagoda in Polish – symbolises vitality, ambition and consistency.

LILI – as in the case of the resort, the name derives from the Cistercian lily. At the same time, it is a popular name for racehorses. The meaning of the word associated with positive feelings fits perfectly with what a hotel of this class wants to offer its guests. MONA, BERRY, LILI are

three separate, independent brands that were meant to function perfectly well apart. However, the assumption was also that, while they may be independent of each other, they are also closely interconnected. Not the place, not the person of the investor, but the power of joint influence on the way in which the needs of the client are satisfied. This common name had to have something unique, unconventional about it – it had to be 'worthy' of Mona, Berry and Lili. It has taken a little from each of them to become, in effect, Beautiful My Resort. And this is where **BEL MON** came in... We based the construction

of this name on the play of the letters BE - from Berry, L from Lili, MON from Mona.

Bel Mon is also a reference to investor Patrick Dermaut's native language. Bel Mon in French means 'My Beautiful'. Bel Mon Resort – this name not only carries deep meaning, but also reflects the values, vision and unique character of the place.
